Students Of Ada Henderson School Give $134.35 To 1954 MOD Drive

The 1954 Annual March of Dimes Drive is in full swing with a few reports coming in from this area, Rev. John Solomon, local chairman, announced.

Rev. Solomon said that credit was due to the students of Ada Henderson and to their chairman, Principal Wiley Loughmiller, for a "job well done". The school completed its drive last Friday afternoon and the students donated a total of $134.35.

Rev. Solomon said the children in the school should be congratulated on the amount given to this worthy cause. The total amount given this year tops the 1952 Ada Henderson collection, and should serve as an example to all.

The students in Yoe High School are to complete their drive this week. Last week the students spent their time in taking mid-term examinations.

The MOD Drive in the colored section of the city will be headed by Mrs. A. B. Smiley, according to Rev. Solomon. Mrs. Smiley offered her services for one phase. The O. J. Thomas School fund raising drive will be under the direction of Principal C. L. Sadberry.

Rev. Solomon said that no returns have come in from any of the appointed committees but he is hoping to receive a few returns this week.

Conjested Phone Conditions To End With Completion of Cables

The Southwestern Bell Telephone Co. here has been working on a new project for the past three months, according to Milton Fuqua, manager.

The principal intention of the Co.'s project is to place new cables to relieve the conjested condition in the North East section of Cameron which includes the Chandler, Green, Country Club and Burns additions. The new cables are being laid to provide a different and higher class of service for those residents.

Fuqua said the telephone co. was also rewiring the County Court House to provide more modern wiring and to remove unsightly poles and wiring going to the building. Fuqua said all of the poles and wires from Fannin up First Street to Central will be removed.

Laying of the new cables to the North East section of the city required the company to begin at the Main Office on Houston Street and continue up 3rd. and Fannin street. The telephone crew is working down Fannin until it reaches 13th street where it turns to advance to that section of the city.

Fuqua said two construction crews and two cable splicing crews are working on this project. The work is progressing nicely and it is expected by the phone officials that the project will be completed sometime this Spring.

1953 Milam Traffic Report Made; Shows 3 Fatal Accidents

The 1953 traffic report for Milam County was released here by Cameron highway patrolmen John Blansit and Otis Hilderbrand.

According to the annual report made, 1953 proved to be a safer year on the highways in Milam County. However, three persons were fatally injured in this county during the past year.

The annual report showed that three fatal accidents occured here. Twenty-six personal injury accidents occured with fifty-eight property damage accidents.

There were three persons killed and 41 injured.

Patrolman Blansit said that the Highway Department here investigated a total of 87 accidents, but that he believed this was not the complete total of accidents in the county for there were some not reported, and a few were investigated by the Sheriff's Department and City Officers.

Blansit completed the report by saying that approximately $62,299 total property damage was caused due to accidents.

During the year of 1952, ten lives were claimed by the highway accidents.

1954 marked up its first highway death on the 2nd of January. It is hoped, however, that the Milam residents will drive carefully hereafter and cut down the number of highway mishaps during this year and set a new record.

Farmers Oppose Flexible Support Price System At Waco Hearing

Texas farmers and ranchers want nothing to do with the flexible support price system as proposed by the present administration. At least none of the 72 farmers and ranchers appearing before the House Committee at Waco Hall Wednesday favored the plan. All wanted at least 90 per cent; some wanted 100 per cent of parity.

The Waco hearing was the second largest held by the committee since it began taking testimony at the grass roots level last August. The committee winds up a 20,000 mile tour of the nation Thursday with a final hearing at Memphis, Tennessee.

West Texas farmers and ranchers, most of them representing the Farmers Union, were in the majority at the hearing. A good representation was noted from Central, East, and South Texas.

Whenever the subject of price supports was brought up, there was applause each time the 90 per cent or 100 per cent props were recommended.

In general, here's what the witnesses wanted:

1. At least 90 per cent of parity.
2. Increased cotton allotments.
3. Easier credit rules and regulations (especially for the drouth-stricken West Texas area.)
4. Reorganization of the Soil Conservation Service to be subject to approval of Congress.

Over 50 appeared as representatives of various farm organizations; the remainder spoke as individuals.

C. H. De Vaney, vice-president of the Texas Farm Bureau Federation, recommended better credit facilities to help farmers and ranchers.

Central Texans appearing included J. W. Richards Jr. of Fairfield; D. T. Janes of Leroy; Bell County Farm Bureau president, Joe Koonsen of Temple; A. L. Rainey of Richland Springs, (San Saba County); R. M. Boswell of Kenedy; Leon Thompson of Waco; O. G. Tumlinson of Cameron and Frank Taylor of Lorena.

Republican congressman Clifford Hope of Kansas, chairman of the House Agriculture Committee; and Democratic congressman Bob Poage of Waco, ranking Democrat on the House Agriculture Committee were present.

McClaren; Albert Dorner; E. B. Yager; Mr. and Mrs. Edward Lehman; S. W. McClaren, Jr.; Mr. and Mrs. Herman Fuchs and H. L. Yager.

All are residents of Milam County and members of the Farm Bureau. They attended the meeting in concern of the organization and in their own individual interest.

LITTLE RIVER PHILOSOPHER COMES UP WITH UNUSUAL PLAN FOR GETTING ACCURATE CHECK ON PUBLIC OPPINION

Editor's note: The Little River Philosopher on his Johnson grass farm on little river has a novel idea this week, but he won't get anywhere with it. There's a bug under the chip.

Dear editar:

There is a matter which has been bothering me lately.

I've been noticin in lots of newspapers which turn up out here, I've started off the new year with a backlog of an average of four newspapers a day, who said times were gonna get tighter, that people have developed a habit of wiring the White House when somebody makes an important address affectin the whole country.

For example, say Sen. Joe McCarthy makes a speech, or President Eisenhower reports on the state of the union and outlines his plans for new legislation, people immediately start wirin the White House their reactions.

Now this puts a big load on the President, in fact, not long ago at one time he was 3,000 telegrams behind in his counting and with the world in the delecate shape it is and domestic problems too crowdin in on him the President just doesn't have time to be countin telegrams.

Therefore I have a plan to relieve him of this burden. Instead of wirin the White House followin one of these speeches, why can't the public notify me?

Of course, you understand I don't have any telegraphic equipment out here on my Johnson grass farm, don't even have a telephone, and frankly there wouldn't be any point in havin Western Union messenger boys runnin back and forth out here, tramplin down the grass and worryin with opening and closing the wire gap.

Also, letters wouldn't be satisfactory either, I've got other things to do the same as the President, people's handwritin is terrible, the mail carrier already has enough stuff to carry, and my mail box is leanin at such an angle now a Sunday copy of most newspapers would topple it to the ground and I have no plans for doin anything about it.

So, I have hit on a plan to give instantaneous reports on the people's reactions to speeches. If President Eisenhower is willin to have me relieve him on this burden, I will arrange with the bank in town to open up two accounts for me, one called the Yea account, the other the Nay account.

Then when some major address is made on a national hook-up everybody in favor of the speech wire one dollar to the yea account; everybody opposed, wire a dollar to the nay account.

Then to find out how public sentiment is runnin, all I'll have to do is check with the bank and see what the balances are in the two accounts. All banks now have electric addin machines and it won't be much trouble for them to keep the totals right up to the minute, and all this doubt and worry over how the public reactin will be eliminated.

If you think this program has any merit, I will appreciate you gettin hold of our Congressman and havin him call by the White House and relieve the President of this burdensome job.

Also, if you know of any controversial matters which would attract nation-wide reaction, I hope you will bring them to the fore and line up somebody to speak on them. I will remain entirely netural in the matter.

Yours faithfully,
J. A.

Revenue Service Asks For Prompt Cooperation From Business Firms

Business firms with large payrolls have been asked by District Director R. L. Phinney of the Internal Revenue Service to release the 1953 W-2 tax withholding statements to their employees as soon as possible, to expedite the filing, payment and adjustment of as many individual taxpayer returns as possible.

With their W-2s in hand, the director pointed out, thousands of taxpayers will be able to prepare their income tax forms at once and send them in to his office. The address to which the payments should be sent is District Director of Internal Revenue, Austin, Texas. Make checks or money orders payable to the District Director of Internal Revenue. Please don't send cash, the revenue office asks.

"To hundreds of our citizens," Mr. Phinney said, "the withholding tax represents their entire tax indebtedness. In some cases, there may be small overpayment or underpayment. Most taxpayers can easily prepare their own returns by reading of the instructions. We'd appreciate taxpayer cooperation in getting all such forms into us at once. That will help us take care of the work load during the deadline period.

"Our office will be glad to help taxpayers with problems. If you think a phone call will provide your answer, call our local office. If you feel that personal visit is the better way, come to our local office and bring your papers, including everything that bears on your income for last year. The address and telephone number of our local office are Cameron, Texas, Telephone number 86.

"To insure assistance in preparing your tax forms, come in or call us early. If you have a group of complicated tax problems, a visit to a tax consultant may be your answer, and will be well worth the time and fee.

"Mainly, we are asking that taxpayers file and pay early and avoid the rush of the second week in March. Figure it out, pay it up, and take the worry off your mind."

1954 Heart Fund Campaign To Begin Here February 1

Goal of the 1954 Heart Fund campaign in Texas, which opens February 1 and continues throughout February, is $458,000, it has been announced by Dr. W. R. White, President of Baylor University and state Heart Fund chairman.

In announcing the state goal, which he termed "the minimum amount needed to assure the success of the heart program, "Dr. White declared that "contributions to the Heart Fund actually are investments - investments in your heart.

"Just as is indicated by the 1954 Heart Fund slogan — 'Help your Heart Fund — Help Your Heart' — the more each of us financially supports the work of our local Heart Association and the affiliated Texas and American Heart Associations, the more benefits we will receive."

Funds contributed to the Heart Fund are used by the Heart Association to support medical and scientific research projects, a nationwide public education program and community heart programs, the noted preacher and educator pointed out.

"The sole purpose of these programs is to reduce disability and death from diseases of the heart and blood vessels — to stamp out heart diseases, the nation's greatest peiler, "Dr. White declared.

Co-chairman of the 1954 Heart Fund campaign are Governor Allan Shivers and Attorney General John Ben Shepperd. This is the third year that Governor Shivers and Mr. Shepperd have served on the state Heart Campaign Committee. Ben H. Wooten, Dallas banker and immediate past president of the Dallas Chamber of Commerce, again is serving as state Heart Fund treasurer.

Ever add up the TAXES you pay with your TELEPHONE bill?

OUT OF YOUR TELEPHONE BILL last year was paid an average in Texas of $42.36 per telephone in taxes. Of this amount, almost half — $18.96 — was Federal excise or "luxury" tax. This tax we simply collected and turned over to the Federal government, at the rate of 15 per cent on your local service and long distance calls costing less than 25 cents, and 25 per cent on long distance calls costing 25 cents or more. If you subtract this tax from your bill, doesn't the actual cost of your telephone service look like an even better bargain than you thought it was? **SOUTHWESTERN BELL . . . MOUNTED PLOWS
first choice for better farming

For WD and WD-45; 3-bottom Mounted Plows in 12-, 14- and 16-inch sizes; for CA; 2-bottom Mounted Plows in 12- and 14-inch sizes.

The trend is to mounted plows and Allis-Chalmers "built-on-the-square" design is a symbol of good farming as well as great strength. Free-Swinging from a single hitchpoint the plow follows contours naturally . . . high clearance helps you cover trash . . . natural line of draft assures uniform plowing depth.

Tough, spring steel frame and beams are set at right angles to each other and rigidly braced. No other design gives you so much resistance to twisting, springing or misalignment. Triple-strength shares—⅝ in. thick, with up to 20 percent more metal, give you correspondingly longer wear.

From where I sit ... by Joe Marsh

Open Even When He's Closed

Must have been daydreaming on my way to a meeting down in Centerville the other night. My car ran dry before I thought to look at the gas gauge, but I managed to coast into a gas station—and found it closed!

Well, I thought my plans were ruined for sure until I noticed a gasoline can with a sign: "This is emergency gas. Just help yourself and leave the can with $1.00. Thanks."

Got started, made the meeting on time, and had enough gas to get back home again—thanks to a trusting friend.

From where I sit, folks who trust their neighbors make the world a better place to live in. For instance, letting a friend express his personal preferences, is one way of trusting your neighbor. Sometimes I prefer a temperate glass of beer in the evening but I'll always ask what you'd like before I pour yours.

It's easy to clean
Blankets, pillows, toys...

When you have an
Automatic Gas **clothes dryer!**

Favorite toys, blankets, and pillows used to be tediously hard-to-wash. Now it's easy because you can fluff-dry them with gas in minutes!

Every feather in your pillows, each bit of stuffing in a toy becomes as soft and springy as when new in a gas dryer. Furry toys and blankets are smooth and fluffy, not matted and stiff.

Shag rugs, chenille, work and play clothes are lots easier to keep clean and new-looking. All these heavy, water-retaining items used to take many hours, if not days, to line-dry. Now they're as easily done as nylons.

And, of course, you're not at all dependent on the weather when you have a gas dryer. See the new automatic gas dryers now at Lone Star Gas or your favorite dealer's store!

Waco Man Named To TP&L Office Staff

G. W. Eichelberger, Waco, has been named to the Dallas Office staff of the Texas Power & Light Company's Farm Service division, it was announced by W. W. Lynch, TP&L president. Eichelberger succeeds Dudley Everett,

G. W. EICHELBERGER

Jr., who resigned to engage in farming operations.

"In his new duties as agricultural specialist," Lynch said, "Eichelberger will work with farm and rural customers in developing farm practices that will increase the farmer's yields and income. He will assist the Company's farm service advisers in special agricultural development activities, help carry out the Company's farm youth development program, and serve as technical agricultural adviser to the Farm Electrification News."

Although a native of Waco, Eichelberger grew up on a farm near China Spring in McLennan county. Through junior high school, his schooling was in the public school of China Spring where he was active in 4-H Club work for three years.

He finished high school in Waco, taking two years of Agriculture and becoming a member of the local FFA chapter. After graduating from high school in 1944, he entered Tarleton State College at Stephenville, specializing in mechanical engineering.

His education was interrupted by a year's service with the U. S. Navy. Following his discharge, he returned to Tarleton, majored in Industrial Arts and was graduated in 1948.

Before joining the Farm Service division of Texas Power & Light, Eichelberger worked for three and a half years in the Company's Meter department at Waco. He said they weren't persuaded to remain in Korea but the sole purpose they were trying to drive over to the Americans was the good of their party.

Capt Brouser personally knew all 22 Americans who refused repatriation.

Miss Joan Hanel Becomes Bride Of Lieut. Gallup in Church Ceremony

Miss Joan Hanel and Lieutenant William C. Gallup were united in marriage at nine o'clock in the morning Wednesday, December 30, 1953. Rev. Arthur Michalka, assistant pastor of St. Cyril & Methodious Catholic at Granger, and cousin of the bride, performed the double ring ceremony in Saint Monica's Catholic Church.

Potted poinsettias, Christmas greens and candles decorated the altar.

Mrs. Florance Karnowski of Alcoa, Tennessee and cousin of the bride, was the organist. She played Mendleson's "Wedding March", "Ava Maria", "On This Day Oh Beautiful Mother", "O Lord I Am Not Worthy" and "Mother At Your Feet We Are Kneeling".

The bride, who was given in marriage by her father, wore her sister's, Mrs. Lawrence Greenwood, wedding dress. The dress which was of white nylon lace over taffeta was fashioned with a fitted bodice. The softly gathered skirt extended into a chapel length train. The long lace sleeves were fastened at the wrist with covered buttons. A softly rolled collar graced each side of the deep pointed neckline. Her veil was also chapel length and gathered softly around a halo crown.

She wore a gold cross and chain which belonged to her grandmother and carried a bridal bouquet of Eucharist Lillies entwined with white streamers on top of a white prayer book, which also belonged to her grandmother. The prayer book was used by her grandmother in her wedding in 1884.

Miss Anna Marie Hanel, sister of the bride, was maid-of-honor. She wore a light blue dress fashioned similar to the bride's. Her bouquet was of white carnations entwined with white net and white satin ribbons.

P. B. Gallup, father of the groom, served as his son's best man.

Monica Mikula, cousin of the bride, was flower girl and Michael Hanel, nephew of the bride was ring bearer. Paul Kunz and Lawrence Michalka served as ushers.

Mrs. Frank Hanel, mother of the bride, chose a black gaberdine suit and wore a white carnation corsage. Mrs. P. B. Gallup, mother of the groom, wore a soft blue faille formal dress and pearls. She had on a white carnation corsage.

Immediately following the ceremony, a reception was held at Simon-George Memorial Hall. The bride's table, covered with a white linen cloth of cut work and lace, was centered with an arrangement of white carnations.

Miss Catherine Michalka, cousin of the bride, served the four tiered wedding cake which was decorated with white roses and rosebuds, and pale green leaves. The cake, topped with a miniature bride and groom, rested upon a reflector and was surrounded by white net. It was baked by the bride's aunt, Mrs. Pete Mikula. Mrs. Joseph Hobizal, sister of the bride, of Belton, assisted at the coffee service.

At noon, dinner was served to approximately 70 relatives at the home of the bride's parents in the Hoyte Community.

For a wedding trip to Houston, Mrs. Gallup wore a moon-silver suit. For jewelery, she wore rhinestones.

Mrs. Gallup is the daughter of Mr. and Mrs. Frank Hanel of the Hoyte Community. She graduated from St. Anthony Parochial School and Yoe High School in 1950. She was employed in the Personnel Office at St. Joseph Hospital in Houston for the past two years.

Lt. Gallup is the son of Mr. and Mrs. P. B. Gallup of Holyoke, Mass. He attended Kent School in Conn. and Middleburg College in Vermont. Lt. Gallup served three years with the United States Air Force as an airial gunner. At present he is in Aircraft Performance Engineering School at Mather Air Force Base, Sacramento, California.

They are making their home in Sacramento, California.

Out-of-town guests were Mr. and Mrs. P. B. Gallup of Holyoke, Mass; Mr. & Mrs. Joe Hobizal of Belton; Mrs. William Allison and children, Miss Catherine Michalka, all of Liberty; Sister M. Veronica of Houston; Sister Mary Joseph of Lake Charles, La.; Sister M. Denis of Beaumont; Mr. and Mrs. Floreance Karnowski of Alcoa, Tennessee; Mrs. W. B. "Moon Is Blue" Saturday Feature At 77-Drive-In Theatre

The old baseball adage, "don't experiment with your team when youre winning," applies equally to the process of adapting a hugely successful play to the screen "The Moon is Blue", one of the most fabulous Broadway hits of recent years, illustrates the point. In its movie version, which opens on Jan. 23 at the 77 Drive-In Theatre through United Artists release, it is basically the same work that has enchanted thousands of playgoers all over the country and in Europe.

On stage, "The Moon is Blue" was acted out in two sets—the Observation Platform of the Empire State Building, and the interior of Donald Gresham's (William Holden) apartment. On the screen the camera roves elsewhere—into the upstairs apartment of David Slater (David Niven), the corridors of the Empire State an architect's office, the elevator and lobby of an exclusive apartment building, a taxi interior, and the baths and kitchens of both apartments.

An even greater extension of the stage play was the fleshing of a character who, in the stage version, never even appeared. This is the role of Cynthia, Niven's daughter, and it is played by the handsome and fabulously constructed Dawn Addams. Miss Addams appears in the film's very funny and quite naughty bathtub scene, wherein she holds a telephone conversation while in the tub.
